

Terrence Whittaker Jr.

EMPLOYMENT HISTORY

Iterable, Software Engineer (Front-End)

OCTOBER 2021 - PRESENT

- Spearheaded front-end efforts to improve locale management for customers, resolving over \$50mm in feature requests.
- Identified project risks and reported findings on the limitations of a third-party technology partner — these recommendations led to the development and delivery of a new image upload feature.
- Overcame over \$7mm in annual recurring revenue (ARR) deal challenges through the delivery of an enhanced query tool recognized as “Best Shipped” at Iterable’s Hack Week.
- Launched 4 large scale projects, contributing to improvements made in engineering design and planning, deployment, and maintenance in production.
- Migrated an existing suite of REST API endpoints over to GraphQL, utilizing React, Typescript, and Apollo.
- Educated peers on the impact of intersectionality in tech, helping to create a culture of diversity, equity, and inclusion.

Diligent, Software Engineer (Front-End)

APRIL 2019 - SEPTEMBER 2021

- Demonstrated engineering competence across 3 enterprise level applications.
- Completed refactor of web app from ASP.Net to React.
- Created reusable and framework agnostic web components to use across Angular and React web apps.
- Improved secure messaging app by focusing on responsiveness and applying a global design system

Union Co., Front-End Developer

MARCH 2018 - APRIL 2019

- Awarded "Kick Ass Award" –a peer recognition program– 5 times.
- Led development team for client’s largest campaign which garnered over 100K unique visitors.

Movement Mortgage, Application Developer

FEBRUARY 2017 - MARCH 2018

- Guided a team of 3 engineers in front-end development, UX thinking, and product development.
- Recognized as Creative of the Month for developing a cost-saving and business driven application that connects potential home buyers with loan officers.
- Maximized loan officer outreach experience through the creation of a lead generation tool using Vue and D3.js
